

ACOUSTIC SLAB

Multi-purpose acoustic insulation for internal applications

Acoustic Slab is designed to help meet the requirements of Building Regulations (England & Wales) Approved Document E and (Scotland) Technical Standards Section 5.

Suitable for a range of internal applications, Acoustic Slab provides high levels of acoustic performance in partitions, floors and ceilings.

Features and Benefits

Excellent acoustic performance

Delivers a measurable reduction in sound transmission in a number of internal acoustic applications.

Quick and easy to install

Cut to 600mm widths for ease of fitting between standard stud spacings.

Non-combustible

Acoustic Slab achieves a Euroclass A1 Reaction to Fire classification, according to BS EN 13501-1.

British Gypsum SpecSure® Warranty

Guaranteed lifetime performance when used as a part of British Gypsum drywall and acoustic floor systems.

Recycled content

Manufactured from up to 75% recycled glass.

Product Specification

Product code	Thickness (mm)	Width (mm)	Length (mm)	Slabs per pack	Pack area (m ²)	Packs per pallet
5200625433	50	600	1200	16	11.52	20
5200625435	75	600	1200	10	7.20	20
5200625437	100	600	1200	8	5.76	20

CHARACTERISTICS

Characteristic	Description
Fire	Euroclass A1 Reaction to Fire classification according to BS EN 13501-1.
Environmental	All ISOVER products are manufactured under Environmental Management System - ISO 14001. BES 6001 Rating "Good" - The Framework Standard for Responsible Sourcing. Zero Ozone Depletion Potential (ODP) and Global Warming Potential (GWP) < 5. The manufacturing process does not use or contain CFC's, HCFC's or other damaging gases.
BRE statements	Acoustic Slab corresponds to the BRE Global Green Guide online generic specification 'Glass wool insulation, ref 815320002' which achieves a summary rating of A+ within Domestic, Health, Industrial, Commercial, Retail, Education.
Quality	All ISOVER products are manufactured under Quality Management Standard - ISO 9001. Acoustic Slab is manufactured in accordance with BS EN 13162 : Thermal insulation products for buildings. Factory made mineral wool (MW) products.
Building regulations	When correctly installed as part of the floors and/or walls of a building, this product can help meet UK acoustic Building Regulation requirements.
Recycled content	Acoustic Slab is manufactured from up to 75% recycled glass.
Durability	Thermal conductivity of mineral wool products does not change with time. Experience has shown the fibre structure to be stable and the porosity contains no other gases than atmospheric air. Made from rot-proof, non-hygroscopic materials. Will not sustain vermin, nor breed or promote fungi or bacteria.
Handling and storage	Information regarding storage, installation and handling of ISOVER products, or health & safety information, can be found here.
Health and safety	
Certification	CE marked (1121-CPD-BA0053) to BS EN 13162. Designation code: MW-EN 13162-T4. SpecSure Warranty with guaranteed lifetime performance when used in British Gypsum systems.
