

Product Data Sheet

TIMBER FRAME ROLL 32

Thermal Insulation for Timber Frame Walls

Timber Frame Roll 32 is a glass mineral wool roll providing thermal performance and acoustic benefits in timber frame walls. The strong, resilient and flexible rolls can be friction fitted between standard timber studs, ensuring straightforward installation and helping to minimise gaps and maximise thermal performance.

Features & Benefits

Thermal Performance

Thermal conductivity of 0.032 W/m.K. Helps to reduce heat loss within the building envelope and decrease energy costs.

Acoustic Benefits

The fibre structure of the glass mineral wool traps sound energy and dissipates it within its thickness, helping to improve the acoustic comfort of those living or working within the building.

Sustainability

Achieves a BRE Green Guide rating of A+ which can assist in demonstrating environmental performance in your BREEAM assessments. Manufactured from up to 75% recycled glass on a plant that uses 100% renewable electricity. For further details, see the Environmental section below or visit [insulation-uk.com/CSR](https://www.insulation-uk.com/CSR)

Fire Classification

Achieves a Euroclass A1 Reaction to Fire classification, according to EN 13501-1.

Easy to Install

Straightforward to handle, cut and install with minimal waste (off-cuts can be reused). Friction fits between timber stud centres with no need for additional fixings.

Key Considerations

When using ISOVER Timber Frame Roll 32, you need to satisfy yourself that use of the product meets all relevant national Building Regulations and guidance as well as local, national and other applicable standards relevant for your construction or application, including requirements in relation to fire and applicable height restrictions.

Please refer to the following product documents which are available at insulation-uk.com/products/isover-timber-frame-roll-32 (product properties) and insulation-uk.com/healthandsafety (safety properties):

Product Specification

Product code	Thickness (mm)	Length (m)	Width (m)	Roll area (m ²)	Rolls per pallet	Pallet area (m ²)	AD Declared thermal conductivity (W/m.K)	RD Declared thermal resistance (m ² .K/W)
5200774591	90	4.20	2 x 0.57	4.79	24	114.91	0.032	2.80
5200818312	140	2.70	2 x 0.57	3.08	24	73.87	0.032	4.35

Characteristics

Thermal Declared thermal conductivity of 0.032 W/m.K under EN 13162: Thermal insulation products for buildings. Factory made mineral wool (MW) products.

Fire Euroclass A1 Reaction to Fire classification according to EN 13501-1.

Environmental All ISOVER products are manufactured under Environmental Management System - ISO 14001:2015. Achieves an A+ Green Guide rating for glass mineral wool insulation ref 815320003 that can assist in demonstrating the environmental performance within BREEAM assessments.

Recycled Content Manufactured from up to 75% recycled glass.

Certification CE marked to EN 13162. Designation code: MW-EN 13162-T1.

Handling, Storage, Health and Safety Information regarding storage, installation and handling of ISOVER products and health & safety information can be found at insulation-uk.com/healthandsafety. EUCB certified, demonstrating our mineral wool fibre products conform with Note Q of Regulation (EC) No 1272/2008 (to download the certification, please visit insulation-uk.com/accreditations.)

Quality All ISOVER products are manufactured under Quality Management Standard - ISO 9001.
